### READY FOR COLD DAYS

The Board of Education Bought Coal For Winter.

### GRAMMAR WANTED IN EAST END

People Object to Paying Street Car Fare. No Change in Tuition—Mrs. Shannon Resigned and Miss Gould Was Elected. Assigning the Teachers.

Considerable routine business came up for discussion at the board of education meeting last evening, and almost two hours were consumed in disposing of all transactions. Mr. Stevenson presented a request from East End people. They desire the board to establish a grammar class in that part of the city. The request was taken under advisement.

The session opened at 8:30 with six members and the superintendent present. The absentees were Mrs. Whitehead and Mr. Nickle. Clerk Norris led in prayer. Then followed the reading of the minutes of the last regular session, which were very lengthy. They were adopted. The fuel committee reported five bids received from the various coal dealers of the city, and advised the contract for furnishing the schools with coal be awarded to Robert Moore, at his bid of 6 3/4 cents, 7 3/4 cents and 8 3/4 cents per bushel, which was the lowest bid received. The rate for delivery of coal depends upon the distance it is carried, and it made necessary three separate bids. The bid of Robert Moore was then accepted.

At this moment Mr. Vodrey arose and said the sewer commissioners were in session at city hall at that time. It was necessary that he be permitted to attend the meeting and confer with them on sewerage connections to be made at Grant street school. Mr. Vodrey was excused, and went to city hall at once. Madison McDole was admitted, and produced a bottle of oil, which he said would prove infallible in allaying dust if properly applied to the floor. He would like to furnish the board with this very necessary commodity. The matter will be considered at a later period.

Mr. Stevenson then gave the request of East End parents. He said a great deal of pressure had been brought to bear upon him lately by his constituents, but in the face of embarrassing financial difficulties he had deferred bringing the matter before them. The East End people thought it was the duty of the board to institute a grammar class in that part of the city. The street car company had refused to give the school children a reduced fare, and there were many parents who could not afford to pay 10 cents daily for transportation. He knew where a room, well adapted for school purposes, could be secured in East End for \$10 a month, but the board would also have to pay the water rent. The cost of operating the class would approximately amount to \$55 a month. Several parents had expressed a willingness to subscribe a certain sum toward keeping up the class. Mr. Stevenson also spoke of the irregularity of the street car schedule during the winter, and when the weather was inclement the pupils going to the city proper were often exposed and in danger of catching cold. He also said scholars living there and attending the central building had to be attired better than if they had the privilege of attending school near their homes. Mr. Stevenson sat down, and President McGraw asked time to meditate upon the matter before action was taken. Before adjournment came a committee was appointed to investigate it and report at the next meeting.

The clerk announced a bill of 81 cents from W. E. Cooper & Co., and another of \$4.70 for stamps and postage. Both were ordered paid. The financial report for the year ending September was read. The total receipts were \$55,011.90; total expenditures, \$42,096.79; balance on hand, \$12,864. The statistical report of the superintendent, a lengthy document, was also read. The reports were adopted.

To systemize matters, Mr. McClain suggested that the janitors of the various schools be empowered to receive coal tickets upon the delivery of fuel and countersign bills of teamsters for hauling garbage, etc. The disposition of garbage must be made in conformity with the laws of the health authorities. Mr. McClain suggested that all bills against the board be presented the last Thursday in each month. These ideas were approved and adopted unanimously.

A gentleman who lives outside of the school district desired to send his children to the schools in the city, and had inquired of Mr. McClain what the tuition fee would be. The board decided that the amount stipulated by the previous body was enough. Superintendent Sanor announced he had received a letter from Mrs. Shannon, who taught in the central building, proffering her resignation. The superintendent recommended Miss Grace T. Gould, of New Brighton, for the position, and after a brief discussion the lady was elected. The superintendent was also instructed to engage Miss Glidden, of Cleveland, as a teacher in science. Mr. Norris brought up the question of music, and advocated it being taught in the schools. It was left in the hands of a committee. Mr. Vodrey returned from the meeting of the sewer commissioners, and said they would agree to place a temporary sewer from Grant street school to Lincoln avenue for the net cost of \$50. To dispose of a matter of no little importance, the superintendent was authorized to engage those holding teachers' certificates as substitute teachers whenever necessary.

A committee was appointed to confer with Mr. Sanor this afternoon and assist him in assigning the various teachers to their respective grades. Acting upon the suggestion of the superintendent, Truant Officer Boardman was instructed to stand at the door and preserve order as the pupils pass in. The examiners' report was received and adopted, and after a discussion of the duties of the truant officer in relation to child labor, the board adjourned for two weeks.

### A FULL TEAM.

The Rovers Decided to Play a Good Game.

The Rovers met last night and decided to play their full eleven against any team in the city on Labor day, instead of dividing the team and playing six to a side. A committee was appointed to select uniforms.

Mercer seems to have regained his old time form, and is pitching good ball. Yesterday he only gave Chicago six hits, and his team won by a score of 1-0.

The Tombstones want to play a series of games with the Crescents, of Wellsville, as soon as possible.

The clerks of this city will play with the clerks of Wellsville, next Thursday afternoon at Wellsville.

### A DISTINGUISHED GUEST.

The Printers Are Entertaining an Old-Time Friend.

Local printers are entertaining a distinguished guest, and he will march with them on Labor day. His name is Rags, and he has not missed a procession of this kind for 10 years. Rags is a dog of no particular breed, but is well known along the river. He will not associate with any but printers, and only once did he forsake them. Then he joined a party of gamblers, but he soon tired of their ways and returned to his old friends. Rags came to town with a couple of tourists from Wheeling the other day, and liked the place so well he has decided to stay. The boys are making it pleasant for him.

### COLUMBIANA IS THERE.

The Wool Growers Will Talk in Columbus Tomorrow.

Hon. A. H. McCoy went to Columbus today, where he will attend the sessions of the wool growers' association and incidentally look at the splendid exhibits at the state fair. The wool growers will declare for McKinley, good money and the tariff of 1869. They believe it will require heroic measures to return the sheep to the hills of Ohio, and will pass resolutions appealing to all the wool growers of America, regardless of partisan opinion, to step up and vote with them.

### WHIPPED HIS HORSES.

They Had No Shoes and Repeatedly Fell Down.

An act of inhumanity was witnessed on Washington street. Two horses, so poorly shod they slipped at almost every step, were drawing a heavy load of clay up the hill. Several times the animals fell, but they were quickly whipped to their feet again. The driver had no mercy upon the poor horses, and when one seemed to be beyond further exertions the driver plied his whip with such brutality as to excite extreme indignation from the bystanders.

### DEATH ON AVONDALE.

He Fell Into a Ditch and Soon After Expired.

A horse owned by Mr. Ivers, of Cadmus street, wandered to Avondale street last night, and not being acquainted with the nature of the ground fell into a deep ditch near Bank street. The poor animal was so badly hurt that it did not live a great while after the fall, and was found dead soon afterward. The ditches worn by floods in that part of the street are dangerous places, and residents who want the street paved find good argument in the dead horse.

### WILL DRILL FOR OIL

Local Capitalists to Put Their Money In Holes.

### THINK THEY WILL SUCCEED

The Field Was Tested In the Days of Gushers and Abandoned Because the Wells Were Not Valuable Enough—Two Holes to Be Bored.

If there is oil under the town of New Waterford a number of East Liverpool capitalists will line their pockets with greenbacks and gold.

Many years ago, when the oil fever was at its height and only a well flowing hundreds of barrels was considered a good thing, Pittsburg capitalists bored the ground between Smith's Ferry and New Waterford full of holes. They got oil, but not in sufficient quantities to make them rich. The casing was drawn and the holes abandoned, and the oil has continued to find its way to the surface, but no one ever attempted to make it pay. Not long ago an enterprising young man secured leases on 600 acres near Waterford and arranged to drill. He came to this city, and in a few days had secured almost all the required capital. The company has not yet been organized, but it is now well under way, and the drill will be set going within the next few weeks. It is proposed to drill two wells, and give the territory the right kind of a test. The leaders of the movement do not expect big gushers, but they look forward to a number of 10-barrel wells, and at the present price of oil they would prove a good investment.

### NOT MUCH COMPLAINT.

Farmers Are Well Satisfied With the Fruit.

The crop bulletin sent out by the department of agriculture says this of the section in which this county is located:

"The apple crop is very fine, and while there is constant complaint of the fruit's dropping from the trees, all reports agree that there is yet an abundance remaining on the trees, which in some cases are breaking down under their tremendous burden. Peaches and grapes are likewise plentiful in most localities. The potato crop is generally good, the exceptions being in lowlands, where there appears to be considerable rotting and some complaint of blight. Pastures and live stock are in prosperous condition."

### ANSON'S VIEW.

He Was Sorry When He Heard Curt Welch Was Dead.

Adrian C. Anson, the great captain of the Chicago team, is quoted as saying: "I was sorry to hear of the death of that able ball player and good hearted chap, Curt Welch, a famous outfielder in his day. Curt was a genial spirit, kind to everybody but himself. Only a few weeks ago the boys on my team, hearing of Curt's misfortune, chipped in and sent him a little purse."

"Welch was a brave fellow, who took all kinds of chances. But he liked a good time, and associated with the good fellows, who made a little tin god of him up to the time of his passing away from the diamond."

### COMING TO AMERICA.

Foreign Manufacturers May Cross the Big Pond.

The New York Crockery Journal intimates editorially that a foreign manufacturer of fine pottery will establish a plant in this country provided certain things occur which are now among the possibilities. The "certain things" are taken to mean the election of William McKinley and the increase of the duty on crockery. The Journal hopes the plant will be built if it will make something totally different from that which is now turned out in this country, but thinks it would be a decided disadvantage if the foreigner began making the regular lines of earthenware.

### AFTER CONFERENCE

Mrs. Whitehead Will Resign Her Position.

Rev. R. B. Whitehead left for Conneville at noon, and when the conference closes he will return to this city and have his household effects sent to his new place of abode. He has several places in view, but will of course abide by the decision of the conference. Mrs. Whitehead will not resign her position as a member of the board of education until they know where they are to be located.

### GOT A RIDE.

Mrs. Joe Hauck Went to Jail in the Patrol.

The patrol was called to Second street last night by Chief Johnson. He had

Mrs. Joe Hauck under arrest, and wanted her taken to city hall. The woman was very drunk, and made so much noise that the police quietly gathered her in. She slept well at city hall during this morning.

Lizzie Brighthouse could not collect the price of freedom yesterday, and spent last night in jail. The time hung unusually heavy upon her, but she made herself as comfortable as possible, smoking cigarettes and telling other prisoners the awful punishment she had in store for the reporters if they made her escape public.

Peter Delaney, who rode once too often on freight trains, was still behind the bars this morning, because he could not pay his fine.

### ON THE RIGHT SIDE.

Prominent Democrats Come Into the Republican Camp.

Hon. David Boyce has received word that his cousin, Hon. George W. Boyce, a leading Democrat of Cincinnati, had announced his intention of voting for McKinley. The gentleman is one of the most prominent attorneys of Cincinnati, and the announcement of his change of view caused no end of a sensation.

Mr. Boyce has also heard from Hon. Henry Bohl, a prominent insurance man who was a Democratic leader when Mr. Boyce was in the legislature. He has come out squarely for McKinley and will vote the Republican ticket.

### FILLING BIG HOLES.

Wharfmaster Lloyd Thinks He Is Making Permanent Improvements.

The wharfboat has been turned around, and the work of repairing it will soon be done.

Wharfmaster Lloyd is filling up the washout near the ferry landing. He thinks he can make the improvement permanent by using old railroad ties and stone.

The Dispatch, a small packet from Steubenville, went to Rochester yesterday afternoon, and returning last evening remained here during the night.

The river is falling, and only the small boats can make trips in safety.

### A BIG CROWD

Will Go From the City to the Chester Meeting.

A large number of East Liverpool people will cross the river to-morrow afternoon for the purpose of attending the Republican meeting in Chester. The fame of Judge Lansing has spread through the country, and the people expect to hear Mr. Bryan's neighbor say a few interesting things of the candidate. 'Tis said that politics in Hancock county excite more interest this year than at any time since the war.

### MARRIED LAST NIGHT.

Mr. Byron Fouts and Miss Frances Ford Made One.

Byron Fouts and Miss Frances Ford were married by Father Smyth last evening in the presence of a few friends. They left on the evening train for Monaca, Pa., where they will visit friends for a few days. Upon their return they will make their home with the parents of the bride. The young people have many friends in the city who wish them a successful journey through life.

### CREAMERY IS IN TOWN.

He Wanted to See His Friends, and Walked In From Lisbon.

"Creamery" Cochran, who was sent from this section to the infirmary almost three years ago, took a sudden notion he would like to visit old friends, and stepped into the office of the township trustees this morning, having walked the entire distance from Lisbon. He will be returned to the institution from whence he came the latter part of the week.

### University Association.

Professor Davis, connected prominently with the University Association and World's Congress extension, is in the city for the purpose of organizing a class. The gentleman formed a class of 60 in Lisbon last evening, and believes he can do even better in this city.

### Joined the Hunters.

Edward and George File, enthusiastic sportsmen of Jeanette, Pa., came to the city yesterday evening, and joined the local hunters in camp at Sprucevale. The whole party observed the opening of the squirrel season by a hunt today.

### A Small Circus.

Dixon's circus, making a train of 20 cars, passed through the city last night bound for some place down the river. The show has been exhibiting in Pennsylvania towns.

### Talked Business.

A meeting of the sewer commissioners was held last night, and some business was transacted. Another meeting will be held at a late hour this afternoon.

### IT HAPPENED LAST FALL

But Mr. and Mrs. Ketchum Did Not Forget

### A COLLISION IN THE STREETS

And They Want Frank Billingsley to Pay \$3,000 Because His Horses Were Not Properly Handled By the Driver In This City.

Lisbon, Sept. 1.—[Special.]—The alleged carelessness and improper conduct of Charles Struthers in the management of a team of horses belonging to J. Frank Billingsley, in East Liverpool last October, founded two damage suits filed here last night.

October 21 Saunders Ketchum and his wife were driving along a street in East Liverpool, when the reckless driving of Struthers caused a collision. The Ketchum carriage, according to the petition, was reduced to kindling wood of the most approved style, and the occupants were thrown out. Ketchum had his collar bone broken and his back and arm hurt, and he believes Mr. Billingsley should pay him \$2,000 without delay. Mrs. Ketchum lost some of the skin off her face, her eyes were hurt, and her jaw broken. She believes \$1,000 would make her whole.

Deputy Supple has handed to the commissioners the following report of prisoners confined in the county jail: John Schaffer, assault and battery; George Heckathorn and Michael S. Irel, burglary; Edward Croxall and George Miller, robbery; Robert Pittenger, horse stealing; Will College, breaking the liquor law; James Johnson and Mennie Whitacre, larceny; Moses Swidells, fornication; Mrs. Rutledge, adultery; Jack Frostbinder, shooting with intent to kill; James McCormick, Patrick McCormick and John Balmont, assault.

The Salem appropriation case was settled in probate court in a hurry by the payment of \$150.

### FRIENDS FROM A DISTANCE

Attended the Funeral of Mrs. Cline This Morning.

The funeral of Mrs. W. A. Cline, this morning, was well attended. A large number of friends and relatives were present from Beaver Falls, Bridgewater and the late home of the deceased. Doctor Slesce, of Homestead, conducted the services in Munhall last evening, and at the First M. E. church this morning Reverend Huston spoke comforting words. The floral tributes were very beautiful. The bereaved family and friends returned home this afternoon. Through some misunderstanding there was no music at the services this morning.

### STRIKE OF THE KILNMEN.

Trouble Still Hangs Over the Pioneer Pottery.

The kilnmen at the Pioneer are striking. Two months ago the management made a proposition to the men, and it was rejected. Eight men, five of the number being kilnmen, then sued for wages long since due, and I. B. Clark took the case to court. Then all the men, except those who had brought suit were paid. Four kilnmen from this city were secured for the plant, but two of them quit work when they heard the situation. Men from other towns were employed, but they, too, gave up their places.

### THOUGHT IT WAS BAKING POWDER

Frank Emmerling Made Cakes of Chloride of Zinc.

The other morning Frank Emmerling, of Jethro, arose at an early hour to go fishing. Not wishing to waken his wife he proceeded to make some pancakes. After eating two of the cakes and feeding his seven years old child part of one he began to feel sick. It was then discovered that he had used chloride of zinc instead of baking powder. Antidotes were administered at once, and after suffering severely for some time both parties recovered.

### MARCHING FOR M'KINLEY.

Colored Voters Organized a Permanent Club Last Night.

A large number of colored voters met last night and organized a marching club. The officers are: Charles Scott, president; Bud Whiting, vice president; J. Goode, secretary; John Bailey, treasurer; George Johnson, captain; W. H. Fryer, first lieutenant, and Bud Whiting, second lieutenant. The club has not decided on a name yet, but the organization is first, last and all the time for McKinley. Permanent quarters will be secured later.

Mrs. Joe Hauck Went to Jail in the Patrol.

The patrol was called to Second street last night by Chief Johnson. He had

Mrs. Joe Hauck under arrest, and wanted her taken to city hall. The woman was very drunk, and made so much noise that the police quietly gathered her in. She slept well at city hall during this morning.

Lizzie Brighthouse could not collect the price of freedom yesterday, and spent last night in jail. The time hung unusually heavy upon her, but she made herself as comfortable as possible, smoking cigarettes and telling other prisoners the awful punishment she had in store for the reporters if they made her escape public.

Peter Delaney, who rode once too often on freight trains, was still behind the bars this morning, because he could not pay his fine.

### ON THE RIGHT SIDE.

Prominent Democrats Come Into the Republican Camp.

Hon. David Boyce has received word that his cousin, Hon. George W. Boyce, a leading Democrat of Cincinnati, had announced his intention of voting for McKinley. The gentleman is one of the most prominent attorneys of Cincinnati, and the announcement of his change of view caused no end of a sensation.

Mr. Boyce has also heard from Hon. Henry Bohl, a prominent insurance man who was a Democratic leader when Mr. Boyce was in the legislature. He has come out squarely for McKinley and will vote the Republican ticket.

### FILLING BIG HOLES.

Wharfmaster Lloyd Thinks He Is Making Permanent Improvements.

The wharfboat has been turned around, and the work of repairing it will soon be done.

Wharfmaster Lloyd is filling up the washout near the ferry landing. He thinks he can make the improvement permanent by using old railroad ties and stone.

The Dispatch, a small packet from Steubenville, went to Rochester yesterday afternoon, and returning last evening remained here during the night.

The river is falling, and only the small boats can make trips in safety.

### A BIG CROWD

Will Go From the City to the Chester Meeting.

A large number of East Liverpool people will cross the river to-morrow afternoon for the purpose of attending the Republican meeting in Chester. The fame of Judge Lansing has spread through the country, and the people expect to hear Mr. Bryan's neighbor say a few interesting things of the candidate. 'Tis said that politics in Hancock county excite more interest this year than at any time since the war.

### MARRIED LAST NIGHT.

Mr. Byron Fouts and Miss Frances Ford Made One.

Byron Fouts and Miss Frances Ford were married by Father Smyth last evening in the presence of a few friends. They left on the evening train for Monaca, Pa., where they will visit friends for a few days. Upon their return they will make their home with the parents of the bride. The young people have many friends in the city who wish them a successful journey through life.

### CREAMERY IS IN TOWN.

He Wanted to See His Friends, and Walked In From Lisbon.

"Creamery" Cochran, who was sent from this section to the infirmary almost three years ago, took a sudden notion he would like to visit old friends, and stepped into the office of the township trustees this morning, having walked the entire distance from Lisbon. He will be returned to the institution from whence he came the latter part of the week.

### University Association.

Professor Davis, connected prominently with the University Association and World's Congress extension, is in the city for the purpose of organizing a class. The gentleman formed a class of 60 in Lisbon last evening, and believes he can do even better in this city.

### Joined the Hunters.

Edward and George File, enthusiastic sportsmen of Jeanette, Pa., came to the city yesterday evening, and joined the local hunters in camp at Sprucevale. The whole party observed the opening of the squirrel season by a hunt today.

### A Small Circus.

Dixon's circus, making a train of 20 cars, passed through the city last night bound for some place down the river. The show has been exhibiting in Pennsylvania towns.

### Talked Business.

A meeting of the sewer commissioners was held last night, and some business was transacted. Another meeting will be held at a late hour this afternoon.

## IT HAPPENED LAST FALL

But Mr. and Mrs. Ketchum Did Not Forget

### A COLLISION IN THE STREETS

And They Want Frank Billingsley to Pay \$3,000 Because His Horses Were Not Properly Handled By the Driver In This City.

Lisbon, Sept. 1.—[Special.]—The alleged carelessness and improper conduct of Charles Struthers in the management of a team of horses belonging to J. Frank Billingsley, in East Liverpool last October, founded two damage suits filed here last night.

October 21 Saunders Ketchum and his wife were driving along a street in East Liverpool, when the reckless driving of Struthers caused a collision. The Ketchum carriage, according to the petition, was reduced to kindling wood of the most approved style, and the occupants were thrown out. Ketchum had his collar bone broken and his back and arm hurt, and he believes Mr. Billingsley should pay him \$2,000 without delay. Mrs. Ketchum lost some of the skin off her face, her eyes were hurt, and her jaw broken. She believes \$1,000 would make her whole.

Deputy Supplee has handed to the commissioners the following report of prisoners confined in the county jail: John Schaffer, assault and battery; George Heckathorn and Michael S. Hall, burglary; Edward Croxall and George Miller, robbery; Robert Pittenger, horse stealing; Will College, breaking the liquor law; James Johnson and Minnie Whitacre, larceny; Moses Schwidlers, fornication; Mrs. Rutledge, adultery; Jack Frostbinder, shooting with intent to kill; James McCormick, Patrick McCormick and John Balmont, assault.

The Salem appropriation case was settled in probate court in a hurry by the payment of \$150.

### FRIENDS FROM A DISTANCE

Attended the Funeral of Mrs. Cline This Morning.

The funeral of Mrs. W. A. Cline, this morning, was well attended. A large number of friends and relatives were present from Beaver Falls, Bridgewater and the late home of the deceased, Doctor Slocce, of Homestead, conducted the services in Munhall last evening, and at the First M. E. church this morning Reverend Huston spoke comforting words. The floral tributes were very beautiful. The bereaved family and friends returned home this afternoon. Through some misunderstanding there was no music at the services this morning.

### STRIKE OF THE KILNMEN.

Trouble Still Hangs Over the Pioneer Pottery.

The kilnmen at the Pioneer are striking. Two months ago the management made a proposition to the men, and it was rejected. Eight men, five of the number being kilnmen, then sued for wages long since due, and I. B. Clark took the case to court. Then all the men, except those who had brought suit were paid. Four kilnmen from this city were secured for the plant, but two of them quit work when they heard the situation. Men from other towns were employed, but they, too, gave up their places.

### THOUGHT IT WAS BAKING POWDER

Frank Emmerling Made Cakes of Chloride of Zinc.

The other morning Frank Emmerling, of Jethro, arose at an early hour to go fishing. Not wishing to waken his wife he proceeded to make some pancakes. After eating two of the cakes and feeding his seven years old child part of one he began to feel sick. It was then discovered that he had used chloride of zinc instead of baking powder. Antidotes were administered at once, and after suffering severely for some time both parties recovered.

### MARCHING FOR MCKINLEY.

Colored Voters Organized a Permanent Club Last Night.

A large number of colored voters met last night and organized a marching club. The officers are: Charles Scott, president; Bud Whiting, vice president; J. Goode, secretary; John Bailey, treasurer; George Johnson, captain; W. H. Fryer, first lieutenant, and Bud Whiting, second lieutenant. The club has not decided on a name yet, but the organization is first, last and all the time for McKinley. Permanent quarters will be secured later.

### Coming Home.

Hollow Rock campground is rapidly becoming deserted. Several families moved back to this city yesterday.

THE gold Democrats can show their good sense in no better manner than to endorse McKinley at their Indianapolis convention.

OUT in Nebraska they don't fall over each other in an effort to see Candidate Bryan. Evidently they have seen enough of him.

THE Republican enthusiasm already developed in this county prompts the belief that the majority for McKinley will be greater than ever.

MR. BRYAN made quite a stir in Northern Ohio yesterday, but Major McKinley has done the same thing so often we have ceased to look upon it as a matter of consequence.

SENATOR TELLER has taken the stump, and in his own quiet way is telling the people how with his millions made from silver he wants free coinage because it will help the poor man.

WHILE Editor Potts and his friends are working to carry those 11 townships the farmers of Columbiana should remember the part Mr. Bryan played when he helped to rob them of their sheep.

## GOVERNMENT BY LAW.

"Government by law must first be assured; everything else can wait. The spirit of lawlessness must be extinguished by the fires of an unselfish and lofty patriotism," penned William McKinley when he wrote that now famous letter of acceptance. He referred to the plank in the Democratic platform which, in advance of all others, Governor Altgeld selected as his own. He it was who allowed riot and bloodshed to mar the name of his state, and he believed it absolutely necessary for his reputation that the people vindicate him at the polls. His influence in the Chicago convention was great. He represented that brand of demagoguery so popular with many delegates that he shone as a hero of the first class. His scheming proclivities allowed him to win, but he cannot win against the united sentiments of Americans who hope the Republic will live as long as earth itself. William McKinley mimes no words and loses no time in declaring against Altgeld and his proposed vindication. The mere expression "government by law must first be assured" is ample proof that he is opposed to the governor of Illinois, and stands upon a basis made up wholly of right.

I will reopen the meat market formerly operated by me on Thursday, Sept. 3, 1896, and will have for sale the best grades of meat the market affords; also dressed poultry and everything good to eat in the line of meats.

# FARM PRODUCTS

How Their Prices Are to Be Affected

BY THE FREE COINAGE OF SILVER.

The American Farmer Will Take Time to Consider Matters Carefully and Get at the Truth—A Clear Cut Answer to Bryan's Claim That Free Silver Coinage Will Increase the Price of Farm Products.

The American farmer is a sagacious and conservative citizen. He takes time to think, and consequently speaks to the point and acts with a purpose. The free silver-popocratic conspirators are confident of the support of the farmers of the country, and it is on the basis of the farmer vote that they make their calculations and predictions.

This shows the extent of their delusion. They are chasing shadows reflected by their own groundless hopes. In counting the farmer as a fool they are fooling themselves. It is probable that the average farmer has as accurate a conception of the essential weakness of the free silver proposition as has the average merchant and manufacturer. He may not voice his thought on this subject in public, but he can be depended upon to vote it at the polls. He is not seeking for a temporary advantage at the expense of those to whom he has to look for an available and remunerative home market. He knows that the people who work for their daily bread are the largest consumers of farm products, and that, therefore, his thrift depends upon their prosperity.

The argument of free silver at this point, or from the farmer's standpoint, is unanswerable. Under free coinage the wage-earner would lose about 47 cents on each dollar that he received. Moreover, the prices of all articles of necessity would immediately double. The workingman would lose at both ends. He would receive less and have to pay more. In order to pay at all he would have to buy less. The farmer would thus lose at least one-half of the home market, which represents about 94 per cent of the total consumption of American agricultural products, only 6 per cent being disposed of in foreign countries. This shows the advantage of the domestic market under the diversified occupations of our people, over an unfriendly, uncertain and often disappointing foreign market.

The American farmer is too sensible a citizen to deliberately kill the goose that lays for him the golden egg of prosperity. This he would do most effectively by destroying the home market, which is practically the only market for the fruits of his industry.

It must now be clear to the farmer that the opportunity to pay off a debt, or here and there, a mortgage, in half-value silver dollars, even if that could be done with a temporary gain, would not begin to compensate him for the loss of the natural market for his products through the inability of the great body of American wage earners to pay for what they need. Credit ceases when cash fails. The farmer wants cash for what he sells, and this he would not be able to get.

The farmer has carefully considered this matter in all its bearings, relations and probable results, and has concluded to cast his vote on the safe side of this burning question. He fully realizes that to vote for Bryan would be the abandonment and repudiation of all those principles and conditions essential to his well-being. He knows that to vote for McKinley will bring success to that party and policy which have in the past brought the greatest measure of thrift and happiness ever possessed by the American people. None but crass minds can resist the logic of recent events. Swaggers, blusters and juvenile eloquence can not deceive or mislead the average farmer on the issues of this campaign.

An argument that reaches the head through an empty pocket is not soon forgotten. But this is not a campaign of despair and desperation on the Republican side. Patriotism, reason and interest unite in demanding the election of McKinley and Hobart.—N. W. Mail and Express.

## The Unlucky Coin.

For those who believe in the fatality of the number 13, the American quarter-dollar is about the most unlucky article they can carry on their persons. On the said coin there are 13 stars, 13 letters in the scroll which the eagle holds in its claws, 13 feathers compose its wing, 13 feathers are in its tail, there are 13 parallel lines on the shield, 13 horizontal stripes, 13 arrowheads and 13 letters in the words "quarter-dollar."—Translated from the Lustige Blaetter.

Jefferson's Rule For a Coinage Ratio.  
The proportion between the values of gold and silver is a mercantile problem altogether. Just principles will lead us to disregard the legal proposition, to inquire into the market price of gold in the several countries with which we shall probably be connected in commerce, and take an average from them.

## OIL OUT IN OHIO.

The Great Increase One of the Features of the Business.

WASHINGTON, Sept. 1.—The geological survey will soon issue reports for the last financial year on the production of petroleum in the United States. Joseph D. Weeks, the petroleum expert, says in his report on production that one of the most notable features of the year was the great increase in output in Ohio.

The production in the United States increased from 49,000,000 barrels in 1894 to nearly 53,000,000 in 1895. In Ohio, from 16,792,154 barrels in 1894 to 19,545,233 in 1895. This increase in Ohio was fairly distributed throughout two important producing districts.

On Southeastern Ohio, Weeks reports: Monroe county—This has been the principal point of interest during the past season. A phenomenal oil well was completed on the Freiden farm, about seven miles northeast of Sistersville. Great excitement followed the opening of this well, and extravagant prices were paid for leases. Thirty days later a gusher was drilled in the Dist farm. This second gusher in the same field resulted in an activity that has been unsurpassed in any field. New wells were rapidly completed, and the production reached 5,000 barrels a day within a few weeks. The pool, however, covered a small acreage, and all efforts to extend it have been futile.

Belmont county—A well drilled near Colerain resulted in a small producer. In all, seven wells have been completed, three of them finding oil in paying quantities. A number of wildcat wells have been drilled in Jefferson, Belmont, Monroe, Noble and Washington counties, but the results was discouraging to investors, as with the exception of Colerain no new pools were opened.

The oil producing territory of Ohio. Weeks reports, can be divided into four districts, in the order of their importance, as follows: The Lima, the Eastern Ohio, the Mecca and the Belden. The production of the Lima district in '95 was nearly 16,000,000 barrels, as compared with a little over 13,000,000 in 1894. Macksburg and Eastern Ohio produced 3,693,248 barrels in 1895, as compared with 3,183,370 in 1894. Mecca-Belden district, produced 940 barrels in 1894, and 1,376 in 1895.

The total value of the production of '95 was \$16,399,242; in '94, \$9,206,293. The average price per barrel for Lima oil for '95 was 71 3/4 cents, or 23 3/4 cents higher than in '94. The average price for Eastern oil advanced from 85 1/2 cents in '94 to 81 3/4 cents in '95, while the value of the Mecca-Belden oil advanced from \$4.76 per barrel to \$5.98. The average price of all oil produced in Ohio in '95 was 83.9 cents a barrel, as compared with 54.8 cents in '94.

## BANK ROBBED OF \$900.

Thieves Following the Bryan Party Did the Deed.

CLEVELAND, Sept. 1.—The gang of thieves which had followed the Bryan party through New York state took advantage of the stop in Ripley to do a clever stroke of work. There is a small bank in the town, a branch of E. A. Skinner's First National bank of Westfield.

The bank clerks rushed to the front door to see the parade pass and in the meantime thieves slipped in at a back window and made way with all the cash in sight, which amounted to about \$900.

## A Mysterious Case.

CINCINNATI, Sept. 1.—Mrs. Mary Haney, aged 60, is dying at the City hospital from injuries supposed to have been received from having been thrown from a tenement house where she lived with her husband and daughter. There is a mystery about how it happened, but the police theory is that some one in the tenement house, in a quarrel or disturbance of some sort, must have thrown her to the ground.

## Liquor Dealers Organizing.

CLEVELAND, Sept. 1.—Leading wholesale liquor dealers and distillers from all parts of the country are in session here for the ostensible purpose of forming a national organization.

## HAPPENED IN THIS STATE

Burglars raided several residences at Hamilton.

John Watts is in jail at Springfield, on the charge of trying to pass counterfeit money.

In a drunken fight in the vicinity of Phillips' bathhouse, Dayton, John Rogers had his left leg broken above the ankle.

The barn of Mrs. C. M. Mahar of near Catawba, burned to the ground with its contents. Loss, about \$800. Origin unknown.

The farmers of the northern part of Montgomery county will conduct the centennial celebration tomorrow afternoon at Polk church.

Dayton is threatened with numerous suits for damages on account of the proposed change of grade of Sixth street, by reason of the paving from Jefferson to Jackson streets.

A buggy in which was seated Robert Newman and a girl was struck by an electric car at Dayton. The occupants were thrown out, the buggy reduced to kindling wood and the horse so badly injured that it had to be shot. Newman received a bad scalp wound, which required several stitches to close it. The woman was injured internally.

The arrangements for Dayton's centennial celebration are progressing satisfactorily. The executive committee now announce that the parade of school children will take place Sept. 15, and that of the civic and military organizations Sept. 16. The mimic carnival at night will be an elaborate affair. Twenty-four floats have already been prepared, representing the various holidays of the year, this being a feature of the night carnival.

## A Historic Hotel Burned.

STOCKBRIDGE, Sept. 1.—The historic Red Lion of Stockbridge, the most popular hotel in the Berkshire Hills, has been totally destroyed by fire. Only the front wall, which dates from 1773, was left standing. Loss, \$50,000; insurance, \$25,000.

## Hiten by a Dog.

PARKERSBURG, W. Va., Sept. 1.—Jesse, the young son of Mrs. Lillie Oohn, has been badly bitten by a vicious dog while sitting on the porch of his mother's residence. The wounds were sutured, and the dog, which was not necessarily fatal.

# NOW TALK OF GRAY.

He May Be the Gold Democratic Nominee.

CLEVELAND NOT A CANDIDATE.

Much Talk of the President, but His Friends Are Discouraging the Movement—Outhwaite and Bynum Mentioned—Vilas Will Not Take It.

INDIANAPOLIS, Sept. 1.—Delegates to the convention of the gold standard Democrats are slow in arriving. A few of the notables, including Perry Belmont and John R. Fellows of New York, Louis Ehrlich of Colorado, Controller Eckels of Illinois, Senator Vilas of Wisconsin, ex-Congressman Outhwaite of Ohio, Congressman Sperry of Connecticut have arrived.

Secretary John R. Wilson already has the signed credentials of over 600 delegates and telegrams announcing the others are on their way.

Thus far but one delegate has appeared who does not favor the nomination of a ticket.

The managers, however, look upon a ticket in the doubtful status of a vital importance. The general expectation now is an electoral ticket will be put up in almost every state in the Union.

This is mainly due from the fact that some Democrats cannot vote the Republican ticket owing to the protective plank in the platform.

Congressman Sperry, however, says many gold Democrats will vote for McKinley.

There is much talk of Mr. Cleveland for the presidential nominee, but his closest friends are discouraging it, and there are also those who believe it would be bad policy to nominate a president or anyone connected with the administration.

The managers have begun to cast around for vote getters. The most prominent name suggested is that of Senator George Gray of Delaware.

Ex-Congressman Outhwaite of Ohio, ex-Minister to Switzerland Broadhead of Missouri and Mr. Bynum are also talked about to some extent.

Senator Vilas will not permit the use of his name in connection with the presidential nomination, is the word brought here by Ellis B. Usher of Wisconsin, who was at the head of the movement for the organization of the gold Democrats in the Badger state. "Senator Vilas does not want the nomination in the first place," said he. "In the second place he is for General Bragg, for whom the state instructed."

## DOWN A MOUNTAIN SIDE.

Passengers' Close Call on the Pike Peak Railroad.

COLORADO SPRINGS, Sept. 1.—The first accident on the Pike Peak cog wheel railroad since it was opened five years ago has occurred, and but for the safety brakes used on all the cars of this line a trainload of passengers would have been hurled down the mountain to destruction. Coming down the mountain the side bars on the driving wheels on both sides of the engine broke apart, rendering the compressed air brakes on the engine useless.

Conductor Guyman applied the automatic brakes in the passenger coach and soon stopped it. The engineer and fireman were compelled to abandon the engine, which was beyond control and it went down the 25 per cent grade at a terrific speed for nearly half a mile, where it struck a curve, jumped the track and shot through the air for fully 150 feet, going clear over a boulder 15 feet high upon the mountain side above the track. It ploughed immense holes in the mountain and the engine and tender separated just as the engine exploded, hurling iron and steel in all directions.

The train was a special, carrying Manager Frederick Harrison and party of the London and Northwestern railway and Major S. K. Hooper, of the Denver and Rio Grande road.

## LI HUNG CHANG'S TRIP.

He Made a Voyage Up the Hudson to West Point.

NEW YORK, Sept. 1.—Li Hung Chang did not inspect the United States military school at West Point. When the United States cruiser Dolphin reached the landing it was raining so hard that the viceroy, at the advice of his doctor did not go ashore. The rest of his party, however, drove about the grounds. The party then returned to New York, where a squad of policemen escorted the great Chinaman back to the Hotel Waldorf. A great crowd lined the way.

Passing Grant's tomb the ensign was dipped and all on board stood bareheaded until the flag was raised again. Li Hung Chang, with his attendants, also stood up, but they did not uncover. After this ceremony the ambassador turned to Colonel Grant, who was still by his side, and said:

"I have seen the tombs of Peter the Great, William the First and Napoleon, but I have not seen anything so grand as this grand reminder of so great a general. It eclipses anything I have as yet seen."

Captain Clover of the Dolphin was then introduced to the viceroy, and in turn he introduced his officers. Li Hung Chang asked him if the boat was a gunboat and then inquired about her batteries and inspected the shells and cartridges which were brought to him. He asked Commander Clover numerous questions about the American navy and the extent of it. He received all the desired information as to the number of battleships, cruisers, torpedo-boats, etc.

Vice President Thompson of the Pennsylvania railroad, was with the party and Li Hung Chang asked him many questions about railroads in the United States.

Probably 7,000 people were at the dock when the party returned to New York.

Li Hung Chang bowed frequently in recognition of the honors paid to him, and he expressed himself as being very much gratified at what he called an unexpected and generous reception by the people of New York.

## NURSED IN AN INCUBATOR.

Phil Armour's Baby Granddaughter Fighting For Life.

CHICAGO, Sept. 1.—The only granddaughter of Phil Armour, the Chicago millionaire, is fighting for life in an incubator.

The child was born last Tuesday to Mr. and Mrs. J. Ogden Armour. The little girl was so small and so delicate that it was decided instantly that she must be confined to an incubator's care. It may be necessary to keep the child in the machine for several weeks.

P. D. Armour's other grandchildren are two boys, children of P. D. Armour, Jr. On the birth of the boys each was presented with \$500,000 by the grandfather. Should the little granddaughter live, she will receive at least this sum, and, in recognition of her surviving under such adverse circumstances, the "dot" may be doubled.

## Died on Her Husband's Grave.

CHICAGO, Sept. 1.—While weeping over the grave of her husband in St. Boniface cemetery, Sunday afternoon, Mrs. Frankise Alkohser, an aged woman, whose home was at 5122 Bishop street, fell dead across the mound. Heart disease, aggravated by great grief, was the cause of death.

THE gold Democrats can show their

good sense in no better manner than to

endorse McKinley at their Indianapolis

convention.

OUT in Nebraska they don't fall over

each other in an effort to see Candidate

Bryan. Evidently they have seen

enough of him.

THE Republican enthusiasm already

developed in this county prompts the

belief that the majority for McKinley

will be greater than ever.

MR. BRYAN made quite a stir in North-

ern Ohio yesterday, but Major McKinley

has done the same thing so often we

have ceased to look upon it as a matter

of consequence.

SENATOR TELLER has taken the

stump, and in his own quiet way is tell-

ing the people how with his millions

made from silver he wants free coinage

because it will help the poor man.

WHILE Editor Potts and his friends

are working to carry those 11 townships

the farmers of Columbiana should re-

member the part Mr. Bryan played when

he helped to rob them of their sheep.

GOVERNMENT BY LAW.

"Government by law must first be as-

sured; everything else can wait. The

spirit of lawlessness must be extinguished

by the fires of an unselfish and lofty pa-

triotism," penned William McKinley

when he wrote that now famous letter

of acceptance. He referred to the plank

in the Democratic platform which, in

advance of all others, Governor Altgeld

selected as his own. He it was who al-

lowed riot and bloodshed to mar the

name of his state, and he believed it ab-

solutely necessary for his reputation that

the people vindicate him at the polls.

His influence in the Chicago convention

was great. He represented that brand

of demagoguery so popular with many

delegates that he shone as a hero of the

first class. His scheming proclivities

allowed him to win, but he cannot win

against the united sentiments of Ameri-

cans who hope the Republic will live as

long as earth itself. William McKinley

minces no words and loses no time in

declaring against Altgeld and his pro-

posed vindication. The mere expres-

sion "government by law must first be

assured" is ample proof that he is op-

posed to the governor of Illinois, and

stands upon a basis made up wholly of

right.

I will reopen the meat market formerly

operated by me on Thursday, Sept. 3,

1896, and will have for sale the best

grades of meat the market affords; also

dressed poultry and everything good to

eat in the line of meats.

# FARM PRODUCTS

How Their Prices Are to Be Affected

BY THE FREE COINAGE OF SILVER.

The American Farmer Will Take Time

to Consider Matters Carefully and Get

at the Truth—A Clear Cut Answer to

Bryan's Claim That Free Silver Coin-

age Will Increase the Price of Farm

Products.

The American farmer is a sagacious

and conservative citizen. He takes

time to think, and consequently speaks

to the point and acts with a purpose.

The free silver-popocratic conspirators

are confident of the support of the farm-

ers of the country, and it is on the basis

of the farmer vote that they make their

calculations and predictions.

This shows the extent of their delu-

sion. They are chasing shadows re-

flected by their own groundless hopes.

In counting the farmer as a fool they

are fooling themselves. It is probable

that the average farmer has as accurate

a conception of the essential weakness

of the free silver proposition as has the

average merchant and manufacturer.

He may not voice his thought on this

subject in public, but he can be de-

pended upon to vote it at the polls. He

is not seeking for a temporary advan-

tage at the expense of those to whom

he has to look for an available and re-

munerative home market. He knows

that the people who work for their daily

bread are the largest consumers of farm

products, and that, therefore, his thrift

depends upon their prosperity.

The argument of free silver at this

point, or from the farmer's standpoint,

is unanswerable. Under free coinage

the wage-earner would lose about 47

cents on each dollar that he received.

Moreover, the prices of all articles of

necessity would immediately double.

The workingman would lose at both

ends. He would receive less and have

to pay more. In order to pay at all he

would have to buy less. The farmer

would thus lose at least one-half of the

home market, which represents about

94 per cent of the total consumption of

American agricultural products, only

6 per cent being disposed of in foreign

countries. This shows the advantage

of the domestic market under the di-

versified occupations of our people, over

an unfriendly, uncertain and often dis-

appointing foreign market.

The American farmer is too sensible

a citizen to deliberately kill the goose

that lays for him the golden egg of pros-

perity. This he would do most effect-

ually by destroying the home market,

which is practically the only market for

the fruits of his industry.

It must now be clear to the farmer

that the opportunity to pay off a debt,

or here and there, a mortgage, in half-

value silver dollars, even if that could

be done with a temporary gain, would

not begin to compensate him for the loss

of the natural market for his products

through the inability of the great body

of American wage earners to pay for

what they need. Credit ceases when

cash fails. The farmer wants cash for

what he sells, and this he would not be

able to get.

The farmer has carefully considered

this matter in all its bearings, relations

and probable results, and has concluded

to cast his vote on the safe side of this

burning question. This is creditable to

his intelligence. He fully realizes that

to vote for Bryan would be the aban-

donment and repudiation of all those

principles and conditions essential to

his well-being. He knows that to vote

for McKinley will bring success to that

party and policy which have in the past

brought the greatest measure of thrift

and happiness ever possessed by the

American people. None but crass minds

can resist the logic of recent events.

Swagger, bluster and juvenile elocution

can not deceive or mislead the average

farmer on the issues of this campaign.

An argument that reaches the head

through an empty pocket is not soon

forgotten. But this is not a campaign

of despair and desperation on the Re-

publican side. Patriotism, reason and

interest unite in demanding the elec-

tion of McKinley and Hobart.—N. Y.

# OIL OUT IN OHIO.

The Great Increase One of the Features

of the Business.

WASHINGTON, Sept. 1.—The geologi-

cal survey will soon issue reports for

the last financial year on the produc-

tion of petroleum in the United States.

Joseph D. Weeks, the petroleum ex-

pert, says in his report on production

that one of the most notable features of

the year was the great increase in out-

put in Ohio.

The production in the United States

increased from 49,000,000 barrels in

1894 to nearly 53,000,000 in 1895. In

Ohio, from 16,792,154 barrels in 1894

to 19,545,233 in 1895. This increase in

Ohio was fairly distributed throughout

two important producing districts.

On Southeastern Ohio, Weeks re-

ports: Monroe county—This has been

the principal point of interest during

the past season. A phenomenal oil

well was completed on the Freiden

farm, about seven miles northeast of

Sistersville. Great excitement followed

the opening of this well, and extrava-

gant prices were paid for leases. Thirty

days later a gusher was drilled in the

Deist farm. This second gusher in the

same field resulted in an activity that

has been unsurpassed in any field.

New wells were rapidly completed, and

the production reached 5,900 barrels a

day within a few weeks. The pool,

however, covered a small acreage, and

all efforts to extend it have been futile.

Belmont county—A well drilled near

Colerain resulted in a small producer.

In all, seven wells have been completed,

three of them finding oil in paying

quantities. A number of wildcat wells

have been drilled in Jefferson, Belmont,

Monroe, Noble and Washington coun-

ties, but the results was discouraging to

investors, as with the exception of

Colerain no new pools were opened.

The oil producing territory of Ohio.

Weeks reports, can be divided into four

districts, in the order of their impor-

tance, as follows: The Lima, the East-

ern Ohio, the Mecca and the Belden.

The production of the Lima district in

'95 was nearly 16,000,000 barrels, as

compared with a little over 15,000,000

1894. Mecca-Belden and Eastern Ohio

produced 3,693,248 barrels in 1895, as

compared with 3,183,370 in 1894. Mecca-

Belden district, produced 940 barrels in

1894, and 1,376 in 1895.

The total value of the production of

'95 was \$16,399,242; in '94, \$9,206,293.

The average price per barrel for Lima

oil for '95 was 71 3/4 cents, or 23 3/4 cents

higher than in '94. The average price

for Eastern oil advanced from 85 3/4 cents

in '94 to \$1.367, in '95, while the value

of the Mecca-Belden oil advanced from

\$4.76 per barrel to \$5.98. The average

price of all oil produced in Ohio in '95

was 83.9 cents a barrel, as compared

with 54.8 cents in '94.

BANK ROBBED OF \$900.

Thieves Following the Bryan Party Did

CLEVELAND, Sept. 1.—The gang of

thieves which had followed the Bryan

party through New York state took ad-

vantage of the stop in Ripley to do a

clever stroke of work. There is a small

field.

The bank clerks rushed to the front

door to see the parade pass and in the

# VIGOROUS WELCOME.

## Greatest Ovation of Bryan's Trip at Cleveland.

HE SPOKE TO OVER 25,000.

Three Great Meetings Held in the Lake City—The Crowding Almost as Great as at Chicago—His Trip from Chautauque to Cleveland.

CLEVELAND, Sept. 1.—Candidate Bryan has been the object of no other demonstration so vociferous and so spectacular as that which the city of Cleveland gave him, and nowhere else, with the possible exception of New York, have so many people attempted to hear him talk. Two great meetings listened to Mr. Bryan, the first in the Central armory, where 16,000 people were packed; the second in Music hall, which holds 8,000, and afterwards he spoke to several thousand from the balcony of the Hollenden hotel. Bands and marching campaign clubs were numerous about the streets, and with thousands of strangers in its gates the city bore a holiday aspect.

Special trains brought out of town clubs in 500 cars on one train from Canton, the members of the Bryan club of that city with their friends; two trains came from Akron, and others from Lorain, Cuyahoga, and other Ohio and Pennsylvania points. For two or three squares the streets about the depot were thronged when the cannon announced the arrival of the train on which the candidate came. There was a parade to escort him to the hotel and another from the hotel to the armory, the latter headed by the Democratic clubs of Cuyahoga county, followed by several war organizations and out-of-town clubs.

The crowd was almost as great as at Chicago and any sort of a stampede would have produced a panic. Mr. Bryan was received with great enthusiasm at each place he spoke. Charles P. Sale introduced him at the armory meeting and Arnold Green at Music hall.

Mr. Bryan in his speech in the armory said:

What is the meaning of this enormous outpouring of the people? No ordinary occasion would produce this scene. No ordinary campaign would stir men's hearts as they are being stirred today. Your presence, your enthusiasm testify to the fact that this year people are thinking as they have not thought before in recent years. And well they may. In this campaign two mighty forces are arrayed, and they are engaged in a struggle which means much to both. When Mr. Carlisle in 1878 was discussing the money question he said:

"The struggle now going on cannot cease, and ought not to cease until all the industrial interests of the country are fully and finally emancipated from the heartless domination of syndicates, stock exchanges and great combinations of money grabbers in this country and Europe." (Cries of "no, no, no.")

Have the people been emancipated from the heartless domination of these heartless syndicates and money grabbers of this country and Europe? (Cries of "no, no, no.")

No, for the last 30 years that heartless domination has increased in its severity and within the last three years that heartless domination has grown more and more intense until today the people are confronted with this proposition: Are the American people able to govern themselves or must this government be thrown over to the syndicates to carry on as they think best for their private profit? (Cries of "no, no, no.")

A voice: Everybody vote for Bryan. (Great applause and cheering.)

Mr. Bryan: It has been customary for many years for the two leading parties to adopt platform ambiguous and meaningless and then go before the people and tell them that the platforms are about the same and make the fight on some other issue. But it has changed in this campaign. There is an issue now and the line is drawn so that no one need be deceived. Is there anybody any party degrading that the gold standard is good? Not one. Never in the history of the United States has a national party dared to write in a national platform a single sentence in approval of a gold standard. It was fastened upon this country by fraud and it can only be continued by deception. (A voice: "Down with McKinley"—great applause.)

The gold standard never fought an open fight in all its career. It carries the mark of the burglar and the knife of the assassin. When it was fastened upon this country in 1873 the American people had never discussed it and no party had ever gone before the people urging a single measure that leaned toward a gold standard. Every step has been taken at night and without the knowledge or consent of the people.

The Republican party had at St. Louis such an opportunity as seldom comes to a party. The present administration had advanced the gold standard, had forced through under whip and spur, a law that repealed the purchasing clause of the Sherman law. The administration had issued bonds in time of peace, and worse than all, it entered into the contract with a few financiers in New York and London by which it had paid these financiers an enormous profit for protecting the treasury, which 70,000,000 of people stood ready to protect.

That an opportunity for the Republican party? Why didn't the convention denounce the financial policy of the Democratic party? Why didn't it demand the abandonment of the gold standard and the restoration of the gold and silver coinage of the constitution? Because their convention was dominated by the same influences that have dominated the controlling affairs of both great parties. The financiers of New York wrote the Republican platform. The laborers of this country, the farmers of this country were looking for relief, but the Republican party was deaf to all sounds save the tinkling of gold, and blind to all colors save the glittering yellow. (Tremendous applause.)

It wrote its platform. Did it say that the gold standard was good? In the presence of the money that it has wrought, audacity did not dare to advocate a gold standard. If anybody comes to you and tells you that the gold standard is good, you ask them who said so. If anybody tells you it is a blessing, ask him why he ever found it out. What does it say? It says that it is the gold standard and that it is to get rid of the gold standard and substitute bimetalism. When? When foreign nations will help us do it. It confesses the gold standard had when it says it ought to be abandoned, and yet confesses that it ought to be kept. It confesses that it must ask for foreign aid.

Mr. Bryan then depicted the evils, he said would result, if silver was driven from this country and the goldbugs turned their attention to all the other

nations of the earth and drove the silver out of them, increasing the demand for gold.

At another point a voice asked: "By what means does money get into circulation?" He ended his explanation by saying that it was so simple there is no need to describe it, but said he:

How do you get gold into circulation? A voice: "We don't see any." I stand corrected. You produce gold from the mines. You take that gold to the mint and have it stamped into money. Money is his, as the bullion was his before the mint stamped it. You take that gold back and you pay the man who produced it from the mines. You pay the interest upon any debt that may hang over the mine. You pay all the expenses of production, and then the profits that remain are yours to spend. That is the way you do with gold. That is the way we want to do with silver. I want you to take this money question and settle it for yourselves.

I understand that sometimes people, when they want the votes of employees, go to the employers and arrange for the delivery of "Loud cries of 'Mark Hanna, Mark Hanna' and hisses." My friends, when we want votes for the Chicago ticket we go to the sovereigns themselves, who are the only owners of their votes. If the employees of the railroads want to vote for the Chicago ticket, those who are in charge of the road have no right to prevent them, and under the Australian ballot they cannot prevent it. I want to feel that I have behind me a majority of the American people who will stand by me while I put in force every word of the Chicago platform, if there is power enough in the government to do it.

The Bryan party left Lakewood on the steam launch Clever. The trip with the exception of a stop at Bemus point was without incident. At that place the crowds gathered about the dock and shook hands with the Democratic nominee. When Chautauque was reached the dock was crowded to its capacity and there were cheers and applause as the boat approached the landing. The party then went to Mayville.

The Bryan party stopped at Prospect park in Chautauque and in response to the calls of the people gathered there, he made a few appropriate remarks devoted of political favor.

From Chautauque the trip of the lake was continued to Mayville. The balcony of the Mayville hotel had been decorated with flags and from it Mr. Bryan made a short speech. He alluded happily to the residence of Judge Albion Towner in that village. Most of the 400 people displayed bunches of golden rods on their coats and hats and had their teams decorated with flowers.

The Bryan party drove 16 miles through a handsome grape-growing country from Mayville to the village of Ripley on Lake Erie. Many of the farm houses by the road were decorated.

McKinley's picture was displayed in many windows as well as Bryan's. After dinner a procession was formed, headed by a band and marched to a grove, where the annual picnic of the Knights of Macabees was in progress. The population of Ripley is 1,000, but 2,500 country people were assembled under the trees.

Mr. Bryan spoke to them for half an hour, incidentally paying attention to the situation in New York state and urging Democrats, who desired the endorsement of the Chicago platform by the state convention, to send instructed delegates. Mr. Leroy H. Stringman, chief of the Macabees, who introduced Mr. Bryan, is a Republican editor, and explained that while many did not agree with the principles of the candidate, they were anxious to hear him. After the speech a reception was held at the depot, and then the party departed for Cleveland, the train being loaded down with offerings of fruits and flowers.

The trip from Ripley to Cleveland was marked by a noteworthy demonstration at Ashtabula. About 2,000 men and women were waiting at the station and came flocking about the last car with a great shout. One man carried a big American flag on a long pole and waved it in the candidate's face. Mr. Bryan made a speech and incidentally inquired whether there were any Republicans in the crowd who would vote for free silver, whereupon there were cries of "here," here, and a cluster of perhaps 30 hands were held up.

The crowd here was one of the most enthusiastic which the candidate has encountered on his eastern trip. After the speech the people, most of them workmen, mobbed the car to clutch the flowers which Mrs. Bryan handed out, men and women fighting to the front so that it seemed some of them must be injured.

Concentrated turned out 400 people and Geneva about the same number, partisans at the latter place, struggling to outdo one another for Bryan and McKinley.

The town of Madison achieved the distinction of giving to Mr. Bryan the first distinct affront which he has met with on his tour. The Madison Republican club, with its banner, a brass band, drum, and yellow badges shining from the members' coats, was arrayed along the track. They beat the bass drum, jeered Bryan and cheered McKinley.

### THE SILVER NOTIFICATION.

Bryan Will Go to Lincoln to Receive Contributions.

CHICAGO, Sept. 1.—Chairman Jones of the Democratic national committee has received a telegram from William J. Bryan, in which the latter stated that he would arrive in Chicago on Sept. 4 and remain until the evening of the 7th. On the afternoon of the 7th, Labor Day, he will address the labor organizations and leave in the evening for his home in Lincoln. This is made necessary by the fact that on the 8th he is to receive the official notification of his nomination by the National Silver party.

D. H. McConville, chief of the speaker's bureau, has left Chicago on his way to Columbus, where he will meet Mr. Bryan and accompany him to this city.

In response to the appeal recently issued by Chairman Jones of the Democratic national committee for popular subscriptions to the campaign fund many contributions are being received by Treasurer St. John at the New York headquarters. In order to systematize this work Chairman Jones is asking all weekly and daily papers in the United States that are favorable to the election of Mr. Bryan to start popular subscriptions in their respective publications.

### A Crime Due to Drink.

DETROIT, Sept. 1.—Frank Beaubien, aged 40, shot and mortally wounded his wife, attempted to kill his two children and then blew his own brains out. Drink was the cause.

# PAIRED M'KINLEY.

## Two Notable Compliments on His Letter of Acceptance

FROM ALLISON AND DINGLEY.

The Iowa Senator Says He Argued the Money Question With Consummate Skill—Dingley Says It Furnishes the Keynote of the Campaign.

CANTON, O., Sept. 1.—Among the thousands of congratulatory messages received by Major McKinley is the following, from Hon. W. B. Allison, Dubuque, Ia.:

MY DEAR GOVERNOR—I want to congratulate you on your letter of acceptance. It is most admirable in tenor and style and unanswerable in statement. Especially wish to congratulate you on your discussion of the money question. Your positions are unassailable and you argue the question with consummate skill.

Another message of congratulation to Major McKinley was the following from Nelson Dingley, chairman of the ways and means committee of Maine:

I have just returned from a week's speaking tour in various parts of Maine, and I take my first opportunity to express to you my great gratification on your most admirable letter of acceptance. It could not have been improved. It furnishes the keynote of the campaign and convinces me that it will prove a tower of strength in the campaign.

### COLORED TROOPS FOR CUBA.

Indiana People Raising Money to Land Them There.

MUNCIE, Ind., Sept. 1.—The meeting held at Salem for the purpose of raising funds to assist Truman Stewart in defraying the expenses of landing 1,000 colored troops in Cuba to assist the insurgents was attended by 1,000 people and a satisfactory sum was the result from the sale of refreshments and subscriptions.

Another man is colonizing troops in Georgia, and they will be shipped from Key West about Oct. 1. Mr. Stewart is a fearless young man, once a candidate for the legislature, and is the chief promoter. Since his plans have been made public he has received hundreds of letters from military men and others anxious to accompany him and many donations.

### ALMOST A TRAGEDY.

Boys Start a Car Down an Incline, but It Is Stopped.

PATERSON, N. J., Aug. 1.—Two mischievous boys climbed on a Wells-Fargo express car at the Erie yard and released the brake. There were two coupled together and they started down the steep incline toward Market street at a sharp speed. The street was crowded and a trolley car filled with passengers was on its way to the East Side.

Just when it seemed that an awful fatality was inevitable, a young man sprang on to the front of the runaway cars and by a vigorous turning of the brake stopped them, but not until they were within a foot of the trolley. No one was injured, but several women fainted and the incident caused great excitement.

### NEW YORK GOLD DEMOCRATS.

SYRACUSE, N. Y., Sept. 1.—The state convention of gold Democrats has met here and named delegates to Indianapolis. Another convention will be held in Brooklyn Sept. 25, it is believed, to put a state ticket in the field.

### Another Released Irishman Insane.

LONDON, Sept. 1.—It is reported that John Duff, another of the Irish political prisoners, has become dangerously insane.

## LOCAL BREVITIES.

The family of John Laughlin moved from Spring Grove today.

E. M. Crosser is able to be out, after a serious illness extending through three weeks.

It is noticed that in spite of the hard times empty houses are hard to find in this city.

A large party of young people will go to Fairview to-morrow evening on a hay wagon.

Robert Walters has purchased a handsome horse from a West Virginia farmer. It has good blood.

The children afflicted with diphtheria in the Shaw and Maloney families, are slowly improving.

Commissioner Finley and his force yesterday cut the weed crop and cleaned the gutters of Third street.

Charles Warner, who was seized with a sudden illness at Spring Grove on Sunday, is slowly improving.

The Daughters of America entertained friends in a very pleasant manner at Bradshaw hall last evening.

The Eclipse football team began practice last evening, and candidates for places on the eleven are numerous.

Miss Jeanette Robbins entertained a number of her young friends last evening in honor of her ninth birthday.

Bills Bros., this morning sued Mary Balmert for \$6.54. The case will be heard by Squire Manley on Friday.

The dance of the Columbian club last evening was particularly enjoyable, and a large number of young people were present.

The Stars and Diamond clubs will play at West End park Saturday. This will be the first ball game played in the city for six weeks.

A wheelman attempted to turn the corner at St. Aloysius church last evening, and got a fall. His head was bleeding when he got up.

Mrs. William Earl, of Fifth street, is at the bedside of Mr. Earl's father, who is near to death because of typhoid fever, in Salineville.

W. Callum, who has a reputation for raising fine cantaloupes, made all the firemen happy by giving them a basket of the finest melons his island affords.

Tommy York will ride in the bicycle races on Labor day if an L. A. W. sanction is secured, and it is probable a large number of entries will be received before next Saturday.

The Federal Labor union met last night and initiated two members. The union will not take part in the parade next Monday, as the grocery stores will not close for the entire day.

Politics make up the only subject for discussion heard these days in Hancock county. "They're fairly mashing each other's faces," is the way one well-known resident put the situation.

The Wellsville Union warns to a respectable pitch because Holiness Taylor told his Hollow Rock audience that any man who voted the Republican or Democratic ticket this year is a thief.

Edward Orr and Heber Thompson, small boys, were playing near their homes on Lincoln avenue, when Orr was hit in the face by a stone thrown by Thompson. His lips were cut. It was an accident.

The shoemakers met last night and completed all arrangements for taking part in the Labor day celebration. The subject of having the Wellsville shoemen organize has been dropped owing to their unwillingness to join the union.

Robert Bradley attempted to step from the wharf to the ferry last evening as the boat was leaving the shore, and fell into the river. Companions aided him in reaching the shore, and he experienced no inconvenience beyond a ducking.

The East End boys are practicing on the race track every day, and expect to make a good showing on Labor day. They carried off the honors two years ago, and feel confident they will make their names remembered on this occasion.

The board of directors of the Young Men's Christian association will meet Wednesday evening for the purpose of transacting business looking forward to the change of quarters. The general association work will be thoroughly discussed.

People from this city who have attended some of the Democratic meetings in the county say they are decidedly tame affairs. To the present time it has been almost impossible to arouse enthusiasm, and Republican votes are made at every meeting.

Will Moore, the well-known elevator man, spent Sunday in New Cumberland, and while there met an old friend he had not seen for 13 years. The man had so changed he did not recognize his face, but when he spoke Mr. Moore readily remembered his voice and called him by name.

The Rechaite reunion last evening was a flattering success. The hall was packed and the occasion was an eventful one. An instrumental and vocal program of music was pleasantly rendered, and a number of speeches reviewing the almost unprecedented prosperity attending the order were made. The festivities were continued until a late hour, and when the reunion was over all felt that a very happy evening had passed.

## HIS PRECINCT AGAINST HIM.

McKinley's Vote as Shown by Poll Far Above That of Bryan's.

A special from Lincoln, Neb., to the Philadelphia Press says:

Major McKinley will carry Candidate Bryan's own precinct by three votes to one for his opponent, and by a plurality larger than that obtained by Harrison four years ago over the combined Populist-Democratic vote for president.

This result, which seems doubly remarkable in view of the Democratic candidate's popularity at home, has been established by a careful house-to-house poll of the precinct, which is A, in the Fifth ward.

All the citizens answered courteously, and it is believed that the poll is accurate. The final figures were: McKinley, 210; Bryan, 71; Bentley, 1; doubtful Republican, 9; doubtful Democrats, 9; undecided, 11.

In 1892, when Mr. Bryan was a candidate for congress, the vote on president was: Harrison, Republican, 192; Cleveland, Democrat, 40; Weaver, Populist, 51. The vote for the Democratic and Populist candidates was thus 91, or 20 more than Bryan bids fair to receive this year. At the same time McKinley will apparently receive 18 votes more than Harrison received.

Mr. Bryan received 123 votes for congress and his opponent, Judge A. W. Field, polled 162. The great drop of the Bryan vote to 71 would seem to indicate that the voters are not considering personal popularity as much as party principles.

Comparison may be made with this vote on justice of the supreme court last fall, when party lines were closely drawn: Maxwell, Independent, 81; Norwalk, Republican, 186; Mahoney, gold Democrat, 16; Phelps, Bryan Democrat, 24.

The result of the canvass surprised even the most radical Republicans, who did not expect McKinley to receive more votes in the precinct than did Harrison in 1892.

A partial canvass of the city and county will apparently show the general result. The county committee distributed blanks and sought to secure an accurate poll. In two precincts reported the result was: McKinley, 219; Bryan, 44. The poll of University Place, a leading center, was, McKinley, 126; Bryan, 14; Prohibition, 19; uncertain, 22. It is claimed that while the returns are incomplete, they establish the general character of the whole.

**Daniel Webster on Money and Wage earners.**

"The very man, of all others, who has the deepest interest in a sound currency, and who suffers most by mischievous legislation in money matters, is the man who earns his daily bread by his daily toil. \* \* \* His property is in his hands. His reliance, his fund, his productive freehold, his all, is his labor. Whether he work on his own small capital or another's, his living is still earned by his industry, and when the money of the country becomes depreciated and debased, whether it be adulterated coin or paper without credit, that industry is robbed of its reward. He then labors for a country whose laws cheat him out of his bread. I would say to every owner of every quarter section of land in the west, I would say to every man in the east, who follows his own plow, and to every mechanic, artisan and laborer of every city in the country—I would say to every man, everywhere, who wishes by honest means to gain an honest living, beware of wolves in sheep's clothing. Whoever attempts, under whatever popular cry, to shake the stability of the public currency, \* \* \* stabs your interests and your happiness to the heart."

## GEMS FROM MCKINLEY.

He puts the issue of the Campaign in a Nutshell.

The people want neither free trade nor free silver. The one will degrade our labor; the other our money. We are opposed—unalterably opposed—to both of them. We have tried the one in a modified form with disastrous results to every American home, and we are strongly opposed to making an experiment with the other.—Speech at Canton, Aug. 22.

## Found.

At Bulger's and Reed's drug stores, a marvelous cure for all kidney complaints, nervous exhaustion and female weakness. It is Foley's Kidney Cure.

Women go on, heedlessly ignoring the dangers that lie right in the path of their thoughtlessness. They neglect little warnings until they get used to them. The warnings become louder and louder, and still they do not heed them. Their sickness increases like a snowball rolling down hill. The sickness comes on gradually, and they get used to it gradually, but it ruins their lives just the same. One woman in a hundred, perhaps, is perfectly healthy. Sometimes her weakness is inherited, sometimes acquired by carelessness. In every case, care and Dr. Pierce's Favorite Prescription will give her new life and strength and vitality. It will fill out the hollows in her cheeks, bring color to her lips, brighten her eyes, and make her really and truly a woman. The "Favorite Prescription" is of inestimable value at three stages in the lives of every woman—when the girl becomes a woman, when the woman becomes a mother, and when the mother becomes incapable of maternity. At these times it gives safety and strength. It is the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

Every woman should have and read Dr. Pierce's Common Sense Medical Adviser, a great book of a thousand pages, profusely illustrated which will be sent free on receipt of 21 one-cent stamps, to pay for mailing only. Address, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

## WHO SAYS SO?

Everybody Who has Used Them and Some of Them are East Liverpool People.

Who told you so? Neighbor So-and-so. Oh, well! That's all right. Testimony differs, doesn't it? The more some people say The less faith we have. But the right man's word is taken at once. That's the difference.

People want East Liverpool reference. Particularly in matters of health. We tell you Doan's Kidney Pills cure. But we are the makers of them. "Who says so?" counts here, doesn't it? East Liverpool people say so, And we give you their addresses. Perhaps you may know them.

Active lives bring on kidney troubles. An example of this is:

Mr. G. H. Gurnea, of 168 Jackson st., the well-known manufacturer of ice cream, says: "I think my trouble started from a cold. It set in with a soreness and stiffness over my whole body; my appetite was poor, and I was troubled a good deal with a bloating at the stomach. There was also a urinary difficulty, and I felt in fact generally used up and as though I was breaking down. I tried two or three different remedies, but they did not do me the least good. I seem if anything to be getting worse. Having heard Doan's Kidney Pills so highly spoken of I made up my mind I would try them and procured a box at the W. and W. Pharmacy. I had not taken over half the box before I was entirely free from all my trouble, my appetite good and my old time vigor restored. I have recommended them to many of my friends, among them Mr. P. J. Green, V. S., and they all speak of them in the highest terms. I can honestly endorse Doan's Kidney Pills if every particular, knowing them to be a No. 1, and well worth a trial by anyone."

Doan's Kidney Pills are for sale by all dealers, price 50 cents, or sent by mail by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

## WORDS AGAINST SILVER.

A Mine Manager Sets Forth the Folly of Free Coinage.

Henry Knippenberg, manager of the Hecla Consolidated Mining and Smelting company, Glendale, Mon., has written the following letter to a friend:

GLENDALE, Mon., Aug. 11.

MY DEAR FRIEND—Your esteemed favor of the 9th at hand, and contents noted. I am ever ready to give a reason for the faith and hope that is within me, whether on politics, religion or morals.

The proposition of free and independent, unlimited coinage at the ratio of 16 to 1, when the commercial value is \$2 to 1, is dishonest, and must result in ruin. To say or claim that by legal action you can create value is an assertion that history, experience and common sense contradict. If the assertion be true, then the law of supply and demand is a fraud, and our poor world has been for 6,000 years doing business on a false basis.

If this assertion be true, then we have at last found the key that unlocks the door, and henceforth by order of congress, signed by the president of the United States, water shall run uphill; the law of gravitation shall for ever be suspended, and rising is a lie; every man shall reap without sowing; idleness and debauchery shall bring plenty and happiness; reputation is honorable and integrity is a fraud.

This whole lot to a question is based upon assumption. I do not know of a single nation on earth that claimed we, as a nation, by our action could or can make the commercial value of silver up to \$1.29 per ounce. This assumption is patented by the Silver party of the United States.

Bishop Newman's Reply to a Populist. George F. Washburn, Boston, Eastern Member of the National Executive Committee of the People's Party.

DEAR SIR—If you will turn to the New York Sun of July 28 you will read this telegram:

To the New York Sun: I did not denounce the Populists as anarchists. JOHN P. NEWMAN.

ASBURY PARK, N. J., July 27.

Had you felt safe to read that patriotic journal, which prefers national honor and commercial honesty to adherence to party, the necessity for your change would have been obviated, and is obviated by this denial.

Are whether Populists are good American citizens or not is a question too large for you and me to settle by controversy. The American people will decide that next November, when, by a magnificent majority, they will elect two men who stand four-square on a

hundred cents in an honest dollar. I should feel badly to have Brother Washburn forsake his church, but he had better do that than pay his pastor 53 cents on a dollar.

I never preached politics, but patriotism and financial honesty is a cardinal virtue of a patriot. I have a great respect for the native-born American, but a good many native-born American citizens fought for the Confederacy, and for the degradation of labor. I am glad in the belief that our noble American farmers are keen enough to escape this silver mania, and who, in the clear, bracing winds of the coming November, will vote for that true American of Ohio, and for that other true American of New Jersey, who will redeem our country's power and glory.

## FREE SILVER CHRISTIANITY.

Preacher Thompson's Dig at Free Coinage in His Sunday Sermon.

The Rev. Mr. George Thompson, rector of Christ's church at Greenwich, Conn., in preaching to a large congregation recently said he would use silver as an illustration, and at once all present were on the alert to hear. It is against the established policy of the church to preach political sermons, but Mr. Thompson scored a point for honest money without departing from the established rule. He likened the coinage of silver to religious pretension, and said:

"Let us, only by way of illustration, take 25 cents' worth of silver to the United States mint and have it coined into a dollar that might pass in the United States for a dollar, but it wouldn't pass in Canada for a dollar. Just so with religion. People who have 25 cents' worth of Christianity, which they try to pass as five dollars' worth will find that when they get to the great banking house of God it will not be received as a dollar's worth."

## A Specimen Populist Creed.

The paper of which Mr. Bryan was editor until recently, the Omaha World-Herald, published, a few days before his retirement, at the head of its editorial columns, as below printed, this piece of advice:

"Every one who has money at his disposal can protect himself against loss through free silver by converting his money into land, houses and merchandise of various kinds. If, besides, he borrows more money and uses it for the purpose, he will make a profit on the transaction at the expense of the man from whom he borrows."

Note especially that last sentence: "If, besides, he borrows more money and uses it for the purpose, he will make a profit on the transaction at the expense of the man from whom he borrows." There's the morality for a "grow and crown" campaign! — Louisville Courier Journal (Dem.).

## THE ISSUE IN A NUTSHELL.

Major McKinley's Answer to Bryan's Contradictory Pleas.

If free coinage of silver means a 53-cent dollar, then it is not an honest dollar. If free coinage means a 100-cent dollar, equal to a gold dollar, as some of its advocates assert, we will not then have cheap dollars, but dollars just like those we now have, and which will be as hard to get. In this case free coinage will not help the debtor or make it easier for him to pay his debts.

## POINTS FOR VOTERS.

If unlimited silver would double the price of a coat, a pair of shoes, a pound of coffee, or a ton of coal, it wouldn't double the daily wages of the workingman. Free silver would pinch the man who works for his livelihood.

The free coinage of silver would not mean more money, but less money. All of the gold now in the country, \$600,000,000, would go out of circulation, and it would take the mints many years to coin that much silver.

## HIS PRECINCT AGAINST HIM.

McKinley's Vote as Shown by Poll Fair Above That of Bryan's.

A special from Lincoln, Neb., to the Philadelphia Press says:

Major McKinley will carry Candidate Bryan's own precinct by three votes to one for his opponent, and by a plurality larger than that obtained by Harrison four years ago over the combined Populist-Democratic vote for president. This result, which seems doubly remarkable in view of the Democratic candidate's popularity at home, has been established by a careful house-to-house poll of the precinct, which is A, in the Fifth ward.

All the citizens answered courteously, and it is believed that the poll is accurate. The final figures were: McKinley, 210; Bryan, 71; Bentley, 1; doubtful Republican, 9; doubtful Democrats, 9; undecided, 11.

In 1892, when Mr. Bryan was a candidate for congress, the vote on president was: Harrison, Republican, 192; Cleveland, Democrat, 40; Weaver, Populist, 51. The vote for the Democratic and Populist candidates was thus 91, or 20 more than Bryan bids fair to receive this year. At the same time McKinley will apparently receive 18 votes more than Harrison received.

Mr. Bryan received 123 votes for congress and his opponent, Judge A. W. Field, polled 162. The great drop of the Bryan vote to 71 would seem to indicate that the voters are not considering personal popularity as much as party principles.

Comparison may be made with this vote on justice of the supreme court last fall, when party lines were closely drawn: Maxwell, Independent, 31; Norvall, Republican, 186; Mahoney, gold Democrat, 16; Phelps, Bryan Democrat, 23.

The result of the canvass surprised even the most radical Republicans, who did not expect McKinley to receive more votes in the precinct than did Harrison in 1892.

A partial canvass of the city and county will apparently show the general result. The county committee distributed blanks and sought to secure an accurate poll. In two precincts reported the result was: McKinley, 219; Bryan, 44. The poll of University Place, a leading center, was, McKinley, 126; Bryan, 14; Prohibition, 19; uncertain, 22. It is claimed that while the returns are incomplete, they establish the general character of the whole.

## Daniel Webster on Money and Wage-earners.

"The very man, of all others, who has the deepest interest in a sound currency, and who suffers most by mischievous legislation in money matters, is the man who earns his daily bread by his daily toil. \* \* \* His property is in his hands. His reliance, his fund, his productive freehold, his all, is his labor. Whether he work on his own small capital or another's, his living is still earned by his industry, and when the money of the country becomes depreciated and debased, whether it be adulterated coin or paper without credit, that industry is robbed of its reward. He then labors for a country whose laws cheat him out of his bread. I would say to every owner of every quarter section of land in the west, I would say to every man in the east, who follows his own plow, and to every mechanic, artisan and laborer of every city in the country—I would say to every man, everywhere, who wishes by honest means to gain an honest living, beware of wolves in sheep's clothing. Whoever attempts, under whatever popular cry, to shake the stability of the public currency, \* \* \* stabs your interests and your happiness to the heart."

## GEMS FROM M'KINLEY.

He Puts the Issue of the Campaign in a Nutshell.

The people want neither free trade nor free silver. The one will degrade our labor; the other our money. We are opposed—unalterably opposed—to both of them. We have tried the one in a modified form with disastrous results to every American home, and we are strongly opposed to making an experiment with the other.—Speech at Canton, Aug. 22.

Women go on, heedlessly ignoring the dangers that lie right in the path of their thoughtlessness. They neglect little warnings until they get used to them. The warnings become louder and louder, and still they do not heed them. Their sickness increases like a snowball rolling down hill. The sickness comes on gradually, and they get used to it gradually, but it ruins their lives just the same. One woman in a hundred, perhaps, is perfectly healthy. Sometimes her weakness is inherited, sometimes acquired by carelessness. In every case, care and Dr. Pierce's Favorite Prescription will give her new life and strength and vitality. It will fill out the hollows in her cheeks, bring color to her lips, brighten her eyes, and make her really and truly a woman. The "Favorite Prescription" is of inestimable value at three stages in the lives of every woman—when the girl becomes a woman, when the woman becomes a mother, and when the mother becomes incapable of maternity. At these times it gives safety and strength. It is the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

Every woman should have and read Dr. Pierce's Common Sense Medical Adviser, a great book of a thousand pages, profusely illustrated which will be sent free on receipt of 21 one-cent stamps, to pay for mailing only. Address, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

The more people say  
The less faith we have.  
But the right man's word  
Is taken once.  
That's the difference.

People want East Liverpool reference, Particularly in matters of health. We tell you Doan's Kidney Pills cure. But we are the makers of them. "Who says so?" counts here, doesn't it? East Liverpool people say so, And we give you their addresses. Perhaps you may know them. Active lives bring on kidney troubles. An example of this is:

Mr. G. H. Garner, of 168 Jackson st., the well-known manufacturer of ice cream, says: "I think my trouble started from a cold. It set in with a soreness and stiffness over my whole body; my appetite was poor, and I was troubled a good deal with a bloating at the stomach. There was also a urinary difficulty, and I felt in fact generally used up and as though I was breaking down. I tried two or three different remedies, but they did not do me the least good. I seem if anything to be getting worse. Having heard Doan's Kidney Pills so highly spoken of I made up my mind I would try them and procured a box at the W. and W. Pharmacy. I had not taken over half the box before I was entirely free from all my trouble, my appetite good and my old time vigor restored. I have recommended them to many of my friends, among them Mr. E. Green, V. S., and they all speak of them in the highest terms. I can honestly endorse Doan's Kidney Pills in every particular, knowing them to be a No. 1 and well worth a trial by anyone."

Doan's Kidney Pills are for sale by all dealers, price 50 cents, or sent by mail by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

## WORDS AGAINST SILVER.

A Mine Manager Sets Forth the Folly of Free Coinage.

Henry Knippenberg, manager of the Hecla Consolidated Mining and Smelting company, Glendale, Mon., has written the following letter to a friend:

MY DEAR FRIEND—Your esteemed favor of the 9th at hand, and contents noted. I am ever ready to give a reason for the faith and hope that is within me, whether on politics, religion or morals.

The proposition of free and independent, unlimited coinage at the ratio of 16 to 1, when the commercial value is 32 to 1, is dishonest, and must result in ruin. To say or claim that by legislative action you can create values is an assertion that history, experience and common sense contradict. If the assertion be true, then the law of supply and demand is a fraud, and our poor world has been for 6,000 years doing business on a false basis.

If this assertion be true, then we have at last found the key that unlocks the door, and henceforth by order of congress, signed by the president of the United States, water shall run uphill; the law of gravitation shall forever be suspended; sowing an acre shall yield every man shall reap without sowing; idleness and dishonesty shall bring plenty and happiness; repudiation is honorable and integrity is a fraud.

This whole lot of question is based upon assumption. I do not know of a single nation on earth that claimed we, as a nation, by our action could or can make the commercial value of silver up to \$1.29 per ounce. This assumption is patented by the Silver party of the United States. HENRY KNIPPENBERG.
